A NEW WAY TO IMPLEMENT YOUR BRAND

We are the new manufacturer of personalised shoes for the promotional gift market.

We produce high quality sneakers totally personalised with your customer's corporate logo, colours and materials.

We are a branding company and have a long experience in the footwear industry. We have a very strong design team able to create the perfect shoe for each project.

DESIGNED IN BARCELONA HOW WE DO IT

All shoes are designed
in Barcelona and totally handmade.

We work together with the best craftsmen
of the sector, recognised worldwide.
We translate into a beautiful and trendy sneaker what
you tell us to do!

Tailored to suit your customer's needs: high quality in
manufacturing reflected in the finishes, details, and
materials of our sneakers.

Our long tradition in the footwear sector provides
experience in high quality leather treatments, a
continued innovation in technologies, professional
manufacturers,
materials and designs.

The ISO 9001:2008 is a universal standard comprising requirements for a quality management system applicable to every organisation, regardless of its size or nature. Its main purpose is to enhance and continuously improve the standards for all processes in place at an organisation, which translates into product quality and satisfaction of customers' expectations. Our Factory holds the ISO 9001:2008 certificate from IQNet number 9190.CLZD

The ISO 14001:2004 standard is to help organizations to protect the environment and to respond to changing environmental conditions. According to ISO 14001, any organization can achieve these goals if it establishes an environmental management system (EMS) and if it continually tries to improve the suitability, adequacy, and effectiveness of this system. Our Factory holds the ISO 14001:2004 certificate from IQNet number 9190.CLZD

We are pleased to certify that none of the items manufactured by us contains any Substances of Very High Concern (SVHC) from the Candidate List Updated on June 20th 2016.

MATERIALS:

All our materials come from local manufacturers who are experts in the footwear industry, from areas where the textile trade has a long-standing tradition in both footwear and leather tanning, offering high-quality materials and a wide variety of finishes and colors.

**Our main materials are:
NAPPA LEATHER AND SUEDE LEATHER, NYLON, COTTON.**

**NAPPA
LEATHER
& SUEDE
LEATHER:**

High quality bovine leather in a variety of colors. Durability, comfort and resistance.

NYLON:

Elastic and resistant fiber in a wide variety of colors.

COTTON:

Cotton fabric is a natural, comfortable and soft fiber with good heat conduction and is breathable.

OUR BIG STEP IS TO BE MORE SUSTAINABLE!

We are committed to acting to contribute to a better future, caring for nature, minimizing our impact on the planet, offering an alternative that is respectful of animals and the environment.

All our models are available in 100% vegan, free of products from animal origin, and also available with recycled materials.

**100%
RECYCLED
COTTON:**

Fabrics made with recycled and treated cotton thread prepared for its use in shoes.

**NYLON
ECO:**

With recycled polyester thread, originating from PET plastic waste, such as the plastic obtained from bottles collected in the Mediterranean Sea.

**VEGAN
MATERIALS:**

A variety of high-quality synthetic materials that can be used as ideal substitutes for traditional leather, with a similar appearance and finish.

BIODEGRADABLE SOLES:

We have biodegradable soles for our clients, soles produced with TR or TPU material composed of between 50% and 100% recycled material, all of which retain their physical and mechanical properties. All of them are environmentally friendly and 100% biodegradable.

CUSTOMISATION TECHNIQUES:

There are 4 main customisation techniques:

EMBROIDERY:

It's the perfect technique for logos formed by letters or more defined and simple designs, or with a limited number of lines. It can be used on all materials, especially on Nappa Leather.

DIE-CUT LEATHER:

Suitable for sharp and simple logos. This technique provides an elegant and sophisticated result with the leather/ leather combination for all brands.

SUBLIMATION PRINT:

Is the best technique when a logo is complex, needs a high definition, many thin lines or gradient colours. Used on pictures, combination of shapes and colours. Only to be applied on nylon fabric.

LASER MARKING:

It's an available solution for leather; the brand will result elegant and clean: good definition with simple logos. This has the additional cost of the stamp/ laser mold.

COLOUR CARDS

We try to reproduce as much as possible the exact colour tone of the original in our catalogue but sometimes it may be subject to main variations depending on laptops or screen resolutions.
